CENSUS OF THE COMMONWEALTH OF AUSTRALIA

VOLUME VI. ——— TASMANIA

PART III. – ANALYSIS OF DWELLINGS IN LOCAL GOVERNMENT AREAS AND IN NON-MUNICIPAL TOWNS (750 PERSONS OR MORE).

PREFACE

This publication shows, for the State of Tasmania, the numbers of occupied dwellings in each Municipality, City and Town with 750 persons or more, classified according to the characteristics of dwellings recorded at the 1954 Census. The characteristics dealt with in the following pages are:– Class of Dwelling (i.e., whether Private House, Flat, etc.); Material of Outer Walls; Number of Rooms; Number of Inmates; Nature of Occupancy; Date of Building; and Weekly Rent (Unfurnished).

This is the third Part issued of the five Parts which will constitute the complete Census Volume for the State of Tasmania. Part I. – Analysis of Population in Local Government Areas, etc., and Part V. – Population and Occupied Dwellings in Localities, have already been published, and the remaining two Parts, which will be issued as the relevant information becomes available, will be entitled : Part II. – Cross-classifications of the Characteristics of the Population, and Part IV. – Cross-classifications of the Characteristics of Dwellings and of Householders. Similar Volumes will be prepared for each State, the Territories, and for Australia as a whole.

The foregoing arrangement, which provides for the progressive issue of Census information for each State and a separate volume for convenient reference to all information published for a State, is a departure from previous practice, when a series of approximately 30 Census Parts was published, some dealing specifically with data for individual States, and others presenting both State and Commonwealth details in respect of a single characteristic of the population or of the dwellings.

At previous Censuses a series of 25 preliminary Census Bulletins was published, giving particulars of population and dwellings in summary form for each State and Territory, but it is not proposed to repeat this issue for the 1954 Census, and only a few preliminary Bulletins will be published as the need arises.

As for the 1947 Census, provision has been made for the issue of a number of supplementary statements in mimeograph form. A list of the 1954 Census publications already issued is shown inside the back cover of this Part.

Explanatory Notes relative to the method of presentation of data in this Part and to Statistical Divisions, Non-municipal Towns, the local government system in Tasmania, and various other matters follow the Table of Contents. Appended to the Explanatory Notes are Summary Tables showing the total numbers of Occupied and Unoccupied Dwellings in the various Municipalities and and Statistical Divisions throughout Tasmania.

EXPLANATORY NOTES

This Part contains particulars of the dwellings of each Tasmanian Municipality according to various characteristics of the dwellings, and corresponds to Part XXV. – Analysis of Dwellings in Local Government Areas, Tasmania, of the 1947 Census.

The method of presenting data herein differs from that adopted in the 1947 Part in that (i) detailed information is provided for the first time for Non-municipal Towns with a population of 750 persons or more, and (ii) Municipalities are arranged in alphabetical order within Statistical Divisions and not in alphabetical order only.

The provision of separate details for Non-municipal Towns of 750 persons or more (i.e., towns not separately incorporated for purposes of local government but whose boundaries were specially determined for Census purposes) enables the inquirer to obtain a more realistic sub-division of population and dwellings of the State into urban and rural than was possible from the results of previous Censuses. The term "Urban", as applied to Tasmania at the 1947 Census, referred to the Metropolitan Area, Launceston and Suburbs and seventeen other towns. For 1954 the latter were extended to twenty-two towns. "Rural" relates to the remainder of the State.

The arrangement of Census data for Municipalities into Statistical Divisions identical with those used in State statistical publications has substituted a series of broad geographical groupings of Municipalities for the former arrangement in alphabetical order. At the end of these Notes, however, there is an alphabetical list of Municipalities, showing the total numbers of occupied and unoccupied dwellings in each Municipality and also the totals for each Statistical Division, the Metropolitan Area and Launceston and Suburbs.

The classification of Statistical Divisions has involved the splitting of certain Municipalities into two parts, and in such cases particulars are shown in each Division for the respective part of the Municipality within that Division, an explanatory note also being added. The Municipalities and the respective Divisions concerned are as follows:–

Municipality –	Statistical Division –
Beaconsfield	(Launceston and Suburbs (North Eastern
Clarence	(Metropolitan Area (South Eastern
Kingborough	(Metropolitan Area (Southern
Lilydale	(Launceston and Suburbs (North Eastern
St. Leonards	(Launceston and Suburbs (North Midland
Westbury	(Launceston and Suburbs (North Midland

A map showing the location and composition of each Statistical Division, and a detailed map of the Metropolitan Area of Hobart, were inserted at the end of Part I of the 1954 Census Volume for Tasmania which was recently issued. At the end of this Part there is an index to facilitate reference to any local Government Area or town for which particulars are shown.

The local government system in Tasmania consists of two separately incorporated Cities (Hobart and Launceston) and 47 Municipalities, which include within their boundaries the whole area of Tasmania, apart from that covered by the two Cities. These Municipalities include both urban and rural areas, the former consisting of separate towns or townships as distinct from the surrounding countryside. The Tasmanian Municipalities are thus more akin to the Shires, District Councils and Road Districts of other States, than to their Municipalities. The Tasmanian Local Government areas for Census purposes were as constituted at 30th September, 1953.

Particulars of dwellings occupied solely by full-blood aboriginals are excluded throughout.

Because of the limitations of space and the need for uniform presentation of data, it has not been possible to publish more detailed information in each table of this Part. Information is available in much greater detail, and will be published in Part IV. – Cross-classifications of the Characteristics of Dwellings and of Householders.

DEFINITIONS

Dwelling. – For the purpose of the Census, a "dwelling" is any habitation occupied by a household group living together as a domestic unit, whether comprising the whole or only part of a building. The term has therefore a very wide reference, and includes, in addition to houses and flats, a great variety of "dwellings" ranging from a single-roomed shack to a multi-roomed hotel or institution.

Occupied Dwellings. – Occupied Dwellings are classified into private and other dwellings.

Private Dwellings. – These comprise mainly Private Houses (including Sheds, Huts, Garages, etc. used for dwelling purposes), Shares of Private Houses, Flats, and Rooms, Apartments, etc. In previous Censuses dwellings returned on the Schedules as sheds, huts, garages, etc. were included with private houses. In the Census of 1954 particulars of these dwellings have been tabulated separately, and so appear in Table No. 1. of this Part. In other tables, however, they are linked with Private Houses to preserve continuity with past Census results. Separate particulars are shown in the 1947 Census publications for private houses which were shared by two or more family units and for which only one Householder's Schedule was received, but in 1954 these dwellings were included with private houses.

Share of Private House. – A share of a private house is a portion of a shared private house which is occupied separately and for which portion a separate Householder's Schedule was furnished.

Flat. – A flat is part of a house or other building which can be completely closed off and which includes both cooking and bathing facilities.

Other Private Dwellings. – These include private dwellings such as apartments, rooms, etc., which are parts of buildings but are not self-contained units.

Dwellings other than Private. – These include Hotels, Boarding Houses, Lodging Houses, Hostels, Educational, Religious and Charitable Institutions, Hospitals, Defence and Penal Establishments, Police and Fire Stations, Clubs, Staff Barracks and Quarters, etc.

Unoccupied Dwellings. – The tables in this Part, except for the Summary Tables immediately following these Notes, exclude particulars of unoccupied dwellings. The term "unoccupied dwellings" is not synonymous with vacant houses and flats available for occupancy, but refers mainly to "week-end", holiday and other dwellings whose usual occupants were temporarily absent on the night of the Census. Newly-completed dwellings awaiting occupancy are also included. Examination of the geographical distribution of such "unoccupied dwellings" indicates that for the most part they were temporarily unoccupied, or located in rural areas other than towns with a population of 750 or more. The total numbers of these dwellings in each Municipality and Statistical Division are shown on the next page.
